

Whitepaper V1

Introduction

A meme and innovation business expanding blockchain memes for a happier tomorrow.

Deeply connected to and driven by our community, we are innovating for good. Building memes, commerce, metaverse and NFT products to derive new kinds of value from crypto technology and to apply it to increasingly better use.

We are driven and want to achieve a lot together with the community. The Founder & CEO Dev Kokoro wants BUSDOGE to be a fair launch on the Binance Smart Chain (PancakeSwap).

Purpose and vision

Our main goal is to deliver full transparency to the community and investors.

BUSDOGE protocol will be a fully community owned project and for that the ownership of the contract will be renounced when BUSDOGE will hit 3 million marketcap.

There are not a lot of projects in the crypto space giving passive income with a renounced ownership. We have big goals for this project and for our investors, we want to hit the top market with our best utilities.
